
Our German-Danish project day 2016

On March 10, 2016 the two English Advanced Courses organised a special project day with students from our partner school in Dronninglund, Denmark. The partnership between our schools started in 2013 as part of the COMENIUS cooperation.

In the morning, our Danish guests (24 students and their teachers) arrived at our school. At the beginning it was a bit difficult for us to coordinate the day because one of our teachers was ill, so we were supported by other teachers. Nevertheless the day went as planned and everybody had a great time!

Two of our students Ali A. and Melisa A. held an introduction speech and we all welcomed our visitors with a big applause followed by a tasty breakfast in our school cafeteria. Thank you, cafeteria team! Some of us were shy at the beginning, but that changed quickly. We showed them around our school, talked about the different school systems, the nationalities of our students and their backgrounds. We let them know how we spend our free time and what we are planning to do after school. Of course they told us the same and we had very lively and interesting discussions. We finished the day with a multicultural lunch (chili, Turkish pizza and pasta) again provided through the cafeteria team, along with some small talk and a group photo at the end of the day. It was a joyful day for us and we hope our Danish friends enjoyed the day as much as we did, we can only guess from their smiling faces. We also hope that our guests had a safe journey home and hope to see you guys again one day. Who knows, maybe next time we will be the ones to visit you!? See you again soon!
